

ABOUT THE CONFERENCE

This bellwether conference will bring together a diverse array of animal interests to explore the effects of propaganda on public policy and society in general.

Each invited speaker will discuss a widely misunderstood topic, describe the commonly held belief, expose the misinformation responsible for the belief and then make recommendations for how we deal with the real issues that challenge us.

Our rich schedule of events will include a welcome reception on Sunday evening, featured lectures and workshops on Monday and Tuesday, and a lobby day on Wednesday to deliver our coalition's unified message to Congress.
